

Re: Company Reference.

To Whom It May Concern:

Turn Key Air Conditioning Ltd are an integral part of our new store development programme, and have been for the past five years. Over those five years, we worked directly with TKAC formulating numerous new store concepts and rollouts generally some 10-15 per annum. Their services and performance has been good quality and we have been pleased with the work they've done for us.

I am aware they are involved with a large proportion of our retail projects, covering feasibility and design through to installation and handover. On each occasion they have offered professional advice & guidance, and have continued to show themselves to be one of our partnering Contractors and a valid member of our new store roll out team.

Due to the nature of our business, any Contractors need to be both flexible and thorough. They need to be able to adapt to our demands and understand our requirements, to which TKAC have delivered. As an organisation our new store development it fluid and complex, but on most occasion TKAC have managed to service our requirements. They are generally on time and on budget with all their projects for our company and have offered appropriate advice if our needs become challenging.

I would recommend Turn Key Air Conditioning Ltd to any prospective customer and we will continue to use their services for the foreseeable future.

Yours Sincerely,

Andy Wilson
Property Controller
Wilkinson
